MILBURN HOUSE, BUFFA- * LO, N. Y., Sept. 12.-The following bulletin was issued by the President's physicians at 9:30 a.

The President has spent a quiet and restful night and has taken much nourishment. He feels better this morning than at any time. He has taken a little solid food this morning and relished it. Pulse, 120; temperature, 100.2.

THE SIXTH DAY

MILBURN HOUSE, BUFFALO, Sept. 12.-Today, the sixth since President McKinley received the wounds which now prostrate him, opened with a heavy rain and every indication pointed to its continuance during the day. During the late portion of the night no one appeared to be moving about in the Milburn House and the lights were only dimly burning. The early morning bulletin prepared by Dr. P. M. Rixey, the President's regular physician, who remained with the President all night, showed that he had passed a comfortable night with little change in pulse and temperature from last night's official statement of the President's condition.

About 8 o'clock the doctors arrived for the regular morning consultation. The consultation was brief, the shortest since the President was stricken and when the physicians came out their elation was evident in their smiling countenances. Dr. Mynter paused after he jumped into his buggy to an- also added to the cumulative evidence eminently satisfactory.

His appetite was good and his spirits were high, so that after his breakfast he asked Dr. McBurney to be allowed to smoke a cigar. The bulletin issued after the morning consultation confirmed offi-cially the private reports of the physi-cians and surgeons. Dr. McBurney decided this morning that his presence was no longer necessary, and that he would leave this afternoon for New York. But it is his intention to return in a few days. Secretary Root was also scheduled to leave at the same hour, and Posmaster-General Smith probably

resident's recovery. The bullet in the body is scarcely mentioned now, either by the president's friends or the physicians. As a factor in the president's condition, it is seemingly ignored. The consensus of opinion of the physicians is that the outer wound will not be healed for several weeks, and that it will be advisable for him to remain quietly here for about a month. They will take no chances. Dr. McBur-ney says the president's ability to sit up is now purely a question of mechan-ics, but that such a move will not be spected negro."

MILLIONAIRE FRICK'S SYMPATHY. NEW YORK, Sept. 12.-H. C. Frick, who arrived here from London on the Oceanic, was visibly affected by the re-ports of the attempted assassination of President McKinley, and of the latest news that besides the would-be assassin, Czolgosz, Emma Goldman was already in custody. It will be remembered that at the time of the riots at the iron mills at Homestead, Pa., in 1882, Alexander Berkmann attempted to kill Mr. Frick in his office at Pittsburg.

Emma Goldman was the closest friend of Berkmann, and was later arrested as an accomplice; but for lack of proof was discharged. Berkmann is now serving a long sentence in the Pittsburg peniten-

His death would be a serious blow to the great commercial interests of this country, which have grown along such healthful lines during his term at the head of our government," said Mr. Frick. "The country cannot afford to lose him."

When requested to talk on the subject of personal anarchistic attacks, Mr. Frick said: "I do not care to discuss such matters, Sufficient it is to bear the marks of three stab wounds and two bullet wounds," and Mr. Frick pointed to a scar above his collar on the left side of his neck.

GENERAL TRACY'S VIEWS.

General Tracy is quoted as saying: "It has been suggested that a crime such as that which startled the whole country last Friday should be made treason. It is impossible, for treason to the country is clearly defined and limit-ed by the constitution itself to armed re-sistance to the power of the government or to giving ald or comfort to its ene-

The same results, however, can be reached in another way. There is such a thing as a breach of the peace of the United States as distinguished from a breach of the peace of the common-wealth or state, and the Federal Government undoubtedly has the power to prescribe a suitable penalty for a breach of the peace.
